

# **Can you mail my documents to another country for me?**

Yes.

That's completely up to you because we require that you must provide us with a prepaid return FedEx or UPS shipping label so we can mail your documents back to you or to wherever and whomever you want your documents to go to. We do not accept airway bills or shipping account numbers. Prepaid labels only.

Just make sure that you check with the shipping company and provide us with a customs shipping invoice if we are sending your documents internationally outside of the United States.
