

Does your expedited federal apostille service pricing include return shipping?

No, return shipping costs are separate.

We don't believe in a one-size-fits-all package to hide the true cost of our international apostille services, as almost all other national apostille companies do. With your order, you must provide Apostille Texas with a prepaid return FedEx or UPS shipping label along with your original documents and our federal apostille service order form, which you mail or email to us.

You can create and purchase a prepaid return FedEx or UPS shipping label online in a few minutes at [FedEx.com](https://www.fedex.com) or [UPS.com](https://www.ups.com) without needing to set up or have an existing account with them.
