

How fast can you get me a federal apostille or authentication?

The current answer is that it all depends on the U.S Department of State.

During pre-COVID times we were able to rush file and get our customer's federal apostille or authenticate certificates in as little as three business days because we could physically hand file and perform walk-in service at the USDOS office in Washington D.C.

Currently, it is taking the United States Department of State an estimated **7-9 business days**, but be warned, this could change without notice at any moment.
