

Can you bill and invoice my company for apostille services?

Sorry, no, we do not do that.

We do not bill or do invoicing of any kind to businesses, corporations, or individuals.

If you pay us by PayPal, Venmo, or Cash App, you'll get an email receipt instantly sent to you from all of those different payment processing platforms.

Or you can pay us via a major credit card or debit card.

You can then email us to request a receipt that will be generated by our merchant account processor, and you'll need to email us the last four digits of the credit card you used with us. Our credit card processor will then email you a receipt of the credit card/debit card transaction that you made to us.
