

I currently live outside the U.S can you help me apostille or legalize documents in the U.S?

Yes, but it all depends on what type of documents you need apostilled, authenticated, or legalized, and from what U.S state your documents originated from.

We only apostille documents at the state level for Texas at the Texas Secretary of State so if your documents originated in any of the forty-nine other states and they are for a Hague Convention member country we can't help you.

If however, your documents are going to a non-Hague Convention member country we can help rush file your documents after you get the state-level authentication certificate at the U.S Department of State in Washington D.C to receive the required federal authentication certificate and then file that at your country of origin's U.S foreign embassy also in Washington, D.C.
