

Can I pay you extra money to deal with mailing my documents back to me?

Sorry, we don't do that for legal and business liability reasons.

With every order, we require that you provide us with a prepaid return FedEx or UPS shipping label that you can email or mail to us.

We DO NOT accept airway bills.

You also can't send us a personal or company FedEx or UPS account number to use.

You must email or mail us an actual prepaid return FedEx or UPS shipping label.

You can create and purchase a prepaid return shipping label at FedEx.com or UPS.com. You don't need to create an account with them, nor do you need to have an existing account set up with them to create and purchase a prepaid shipping label online.

Click on the links below for step-by-step screenshot directions on how to create a prepaid FedEx or UPS shipping label online in only a few minutes.
