

I'm creating a prepaid shipping label and it's asking for a ship date what do I put?

When you go to FedEx.com or UPS.com to create a prepaid return shipping label which we require on every order (unless you plan to travel to our office), so we can mail your documents back to you.

The FedEx or UPS online prepaid shipping label creation order form system will ask you for a **ship date**, which just means when you (Apostille Texas in this case) will be dropping off your items with that courier.

The ship date that you enter doesn't matter because FedEx or UPS will always issue and place a new shipping sticker on your shipment based on when your prepaid shipping label is presented to them (this will be done by us).

Just put the next day from when you first created the shipping label, and we've been told directly by both FedEx and UPS managers that prepaid shipping labels do not expire.
