

# Can you apostille or authenticate federal documents in Texas for me?

Afraid not, friend.

All federal documents such as FBI criminal background check reports and Certificate of Naturalization can only be federally apostilled and authenticated in Washington D.C at the U.S Department of State.

No federal document can be apostilled or authenticated by any state's Secretary of State office.

Please check out our **federal apostille** page to learn how we can help you rush to obtain federal apostille and authentication certificates for you or your company.
