

Does your expedited Texas apostille service pricing include return shipping?

No, return shipping costs are separate.

We don't believe in rolling the cost into a one-size-fits-all package to hide the true cost of our international apostille services like almost all other national apostille companies do.

With your order, you must provide Apostille Texas with a prepaid return FedEx or UPS shipping label/envelope along with your original documents and our order form that you send us.

You can purchase a prepaid return shipping label online in a few minutes at www.FedEx.com or www.UPS.com without needing to set up or have an account with them.
