

How to request an apostille in Texas?

For you, to apostille a document in Texas, either you or an expedited apostille services company that you hire will rush file your original recordable documents or your properly notarized original non-recordable documents at the Texas Secretary of State office in downtown Austin, TX.

You must either mail us or drop off your documents at our office to receive a Texas apostille certificate.

The State of Texas will then issue a universal Texas apostille certificate on your legal document.
